

Hello. My name is Rabbi Rebecca Dubowe and I am very excited to announce that I will be teaching a class on "Introduction to Judaism."

I have taught this class for many years to many different people; however, this class is unique. Why? Because this class will only be taught in ASL. Yes! That means that ***this class is for Deaf people like me.***

This class will be 21 weeks and that is a lot of classes because we have much to cover including Jewish lifecycles like *bar mitzvah*, [the entire lifespan] from birth to death.

We will learn about Torah.

We will learn about history.

We will learn about prayer and many more.

I want to see you. I want to learn more about you because I know that you want to learn more about Judaism. ***This is your chance.***

It is important to register. You will be asked to pay for the classes. Keep in mind and know that there are scholarships. Most importantly, you need to ask and register because *the Union of Reform Judaism really want US to participate - to become ongoing learners of Torah and Judaism.*

Who can come to class? You can be one who was born Jewish, Jew-by-Choice, or if you are learning and curious about Judaism. ***This is the class for you.***

I have been a rabbi for over 25 years. I am very honored and excited to offer this class for us. If you have any questions or want more information, please click on the link below.

Please come and join for this wonderful class! Thank you.
